SplitMate UI Specification Document

1. Design System

1.1 Color Palette

The primary color for SplitMate is a military green (olive drab) tone, replacing the bright green in the original design. A comprehensive palette includes primary, light, dark, and accent variants, along with neutral tones for text, backgrounds, and borders.

Category	Name	Hex Code	Description
Primary	Primary Green	`#4B5320`	Main brand color, used for primary actions, prominent UI elements.
	Light Green	`#6B7B3A`	Lighter variant for backgrounds, secondary elements, or subtle highlights.
	Dark Green	`#3A4219`	Darker variant for text on light backgrounds, active states, or deep accents.
	Accent Green	`#8F974B`	A brighter, complementary green for accents, highlights, and interactive elements.
Neutrals	White	`#FFFFFF`	Backgrounds, text on dark elements.
	Light Gray	`#F5F5F5`	Subtle backgrounds, separators, inactive states.
	Medium Gray	`#CCCCCC`	Borders, secondary text, icons.
	Dark Gray	`#333333`	Primary text, headings.

	Black	`#000000`	Very dark text, shadows.
Feedback	Success	`#28A745`	For successful operations or positive indicators.
	Warning	`#FFC107`	For warnings or cautionary messages.
	Error	`#DC3545`	For error states or critical information.

1.2 Typography Scale

SplitMate utilizes a clean, modern sans-serif typeface for optimal readability across various screen sizes. The typography scale defines consistent font sizes, weights, and line heights.

Role	Font Size (px)	Font Weight	Line Height (px)	Example Usage
Display	32	Bold (700)	40	Onboarding headlines
Heading 1	24	Bold (700)	32	Screen titles (e.g., "Analytics")
Heading 2	20	Semibold (600)	28	Section titles (e.g., "Wallet Balance")
Body Large	16	Regular (400)	24	Main content text, list item titles
Body Medium	14	Regular (400)	20	Secondary text, descriptions, input labels
Body Small	12	Regular (400)	18	Captions, timestamps, small labels
Button Text	16	Semibold (600)	24	Primary and secondary button labels

1.3 Spacing System

A consistent 8-pixel grid system is used for all spacing, ensuring visual harmony and scalability. All spacing values are multiples of 8px.

| Token | Value (px) | Description |

|---|---|---|---|

| `spacing-xxs` | 4 | Extra extra small spacing, e.g., between icon and text. |

| `spacing-xs` | 8 | Extra small spacing, e.g., between small elements. |

| `spacing-sm` | 16 | Small spacing, e.g., padding within components, between list items. |

| `spacing-md` | 24 | Medium spacing, e.g., section padding, between major components. |

| `spacing-lg` | 32 | Large spacing, e.g., screen margins, between large sections. |

| `spacing-xl` | 48 | Extra large spacing, e.g., significant visual separation. |

1.4 Border Radius Tokens

Consistent border radii are applied to UI elements for a modern, soft aesthetic.

| Token | Value (px) | Description |

|---|---|---|---|

| `radius-sm` | 4 | Small radius, e.g., input fields, small badges. |

| `radius-md` | 8 | Medium radius, e.g., cards, buttons. |

| `radius-lg` | 12 | Large radius, e.g., larger containers. |

| `radius-full` | 999 | Fully rounded, e.g., circular avatars, pills. |

1.5 Shadow Tokens

Subtle shadows are used to create depth and hierarchy, distinguishing interactive elements and cards.

Token	Offset X (px)	Offset Y (px)	Blur (px)	Spread (px)	Color	Description
`shadow-sm`	0	1	3	0	`rgba(0, 0, 0, 0.1)`	Light shadow for subtle elevation.
`shadow-md`	0	4	6	-1	`rgba(0, 0, 0, 0.1)`	Medium shadow for cards

						and buttons.
`shadow-lg`	0	10	15	-3	`rgba(0, 0, 0, 0.1)`	Deeper shadow for prominent elements.

2. Component Library

This section details every reusable UI component, including their structure, styling, and usage. Each component is designed to be consistent with the defined design system.

2.1 Buttons

Primary Button

- **Appearance:** Solid background with white text.
- **Background:** `Primary Green` (`#4B5320`)
- **Text Color:** `White` (`#FFFFFF`)
- **Font:** `Button Text` (16px, Semibold)
- **Padding:** `spacing-sm` (16px) vertical, `spacing-md` (24px) horizontal.
- **Border Radius:** `radius-md` (8px).
- **Shadow:** `shadow-md` .
- **Example:** "Get Started" button on Onboarding screen.

Secondary Button (Outline)

- **Appearance:** Transparent background with colored border and text.
- **Border:** 1px solid `Primary Green` (`#4B5320`)
- **Text Color:** `Primary Green` (`#4B5320`)
- **Font:** `Button Text` (16px, Semibold)
- **Padding:** `spacing-sm` (16px) vertical, `spacing-md` (24px) horizontal.
- **Border Radius:** `radius-md` (8px).
- **Example:** "Login" link on Onboarding screen (styled as a button).

Icon Button

- **Appearance:** Circular or square button with an icon.
- **Background:** Varies (e.g., `Light Gray` for inactive, `Primary Green` for active).
- **Icon Color:** Varies (e.g., `Dark Gray` for inactive, `White` for active).
- **Size:** 48px x 48px (example, adjust based on context).
- **Border Radius:** `radius-full` for circular, `radius-md` for square.
- **Example:** "Send", "Request" buttons, tab bar icons.

2.2 Cards

General Card

- **Background:** `White` (`#FFFFFF`)
- **Padding:** `spacing-md` (24px) all around.
- **Border Radius:** `radius-lg` (12px).
- **Shadow:** `shadow-md` .
- **Usage:** Used for grouping related content, e.g.,
  Wallet Balance, Recent Activity, Analytics charts.

Card (Interactive/Small)

- **Background:** `Light Green` (`#6B7B3A`) or `White` (`#FFFFFF`)
- **Padding:** `spacing-sm` (16px) or `spacing-xs` (8px).
- **Border Radius:** `radius-md` (8px).
- **Shadow:** `shadow-sm` .
- **Usage:** Smaller interactive cards like the
  credit card representations or the small bar charts in the Analytics screen.

2.3 Inputs

Text Input Field

- **Appearance:** Rounded rectangular field with placeholder text.
- **Background:** `Light Gray` (`#F5F5F5`)
- **Border:** 1px solid `Medium Gray` (`#CCCCCC`) on focus, otherwise transparent.
- **Text Color:** `Dark Gray` (`#333333`)
- **Placeholder Color:** `Medium Gray` (`#CCCCCC`)
- **Font:** `Body Medium` (14px, Regular)

- **Padding:** `spacing-sm` (16px) vertical, `spacing-sm` (16px) horizontal.
- **Border Radius:** `radius-sm` (4px).
- **Example:** Not explicitly visible in the provided screens, but a standard component for forms.

2.4 List Items

Activity List Item

- **Structure:** Avatar on left, primary text (name/description), secondary text (time/category), amount, and optional status/icon on right.
- **Background:** Transparent.
- **Padding:** `spacing-sm` (16px) vertical, `spacing-md` (24px) horizontal.
- **Separator:** 1px solid `Light Gray` (`#F5F5F5`) at the bottom.
- **Primary Text (Name/Description):** `Body Large` (16px, Regular), `Dark Gray` (`#333333`).
- **Secondary Text (Time/Category):** `Body Small` (12px, Regular), `Medium Gray` (`#CCCCCC`).
- **Amount Text:** `Body Large` (16px, Regular), `Dark Gray` (`#333333`) for negative, `Primary Green` (`#4B5320`) for positive.
- **Example:** Items in "Recent Activity" section.

Category List Item (Analytics)

- **Structure:** Small colored dot, category name, and amount.
- **Background:** Transparent.
- **Padding:** `spacing-sm` (16px) vertical, `spacing-md` (24px) horizontal.
- **Separator:** None visible, assumed to be grouped within a card.
- **Dot:** 8px diameter circle, color varies by category (e.g., `Primary Green` , `Error` , `Warning`).
- **Category Name:** `Body Large` (16px, Regular), `Dark Gray` (`#333333`).
- **Amount Text:** `Body Large` (16px, Regular), `Dark Gray` (`#333333`).
- **Example:** Items in the expense breakdown on the Analytics screen.

2.5 Tab Bar

Bottom Navigation Tab Bar

- **Appearance:** Fixed at the bottom of the screen, with icons and optional text labels.
- **Background:** `White` (`#FFFFFF`)
- **Height:** Approximately 60px (excluding safe area).

- **Shadow:** `shadow-sm` (subtle top shadow).
- **Active Tab Indicator:** Small dot (`spacing-xxs` diameter) below the active icon, `Primary Green` (`#4B5320`).
- **Icon Size:** 24px x 24px.
- **Icon Color (Inactive):** `Medium Gray` (`#CCCCCC`).
- **Icon Color (Active):** `Primary Green` (`#4B5320`).
- **Example:** Navigation at the bottom of Home and Analytics screens.

2.6 Charts

Bar Chart (Mini)

- **Appearance:** Small, contextual bar chart within a card.
- **Bars:** `Light Green` (`#6B7B3A`) or `Primary Green` (`#4B5320`).
- **Labels:** `Body Small` (12px, Regular), `Medium Gray` (`#CCCCCC`).
- **Usage:** "My Spending" section on Analytics screen.

Line Chart (Main)

- **Appearance:** Larger line chart showing trends over time.
- **Line Color:** `Primary Green` (`#4B5320`).
- **Fill Color:** Gradient from `Light Green` (`#6B7B3A`) to transparent.
- **Data Point Label:** Small card with amount, `White` background, `shadow-sm` .
- **Axis Labels:** `Body Small` (12px, Regular), `Medium Gray` (`#CCCCCC`).
- **Usage:** Main expense chart on Analytics screen.

2.7 Avatars

Circular Avatar

- **Appearance:** Circular image placeholder or user photo.
- **Size:** Varies (e.g., 40px for list items, 48px for profile).
- **Border Radius:** `radius-full` .
- **Background (Placeholder):** `Light Gray` (`#F5F5F5`).
- **Example:** User profiles in "Recent Activity".

2.8 Badges

Notification Badge

- **Appearance:** Small, circular indicator with a number.
- **Background:** `Error` (`#DC3545`).
- **Text Color:** `White` (`#FFFFFF`).
- **Font:** `Body Small` (12px, Semibold).
- **Size:** Approximately 16px diameter.
- **Example:** Notification icon on Home screen.

Status Badge (e.g., for cards)

- **Appearance:** Small, rounded rectangle with text.
- **Background:** Varies (e.g., `Primary Green` for active, `Medium Gray` for inactive).
- **Text Color:** `White` (`#FFFFFF`) or `Dark Gray` (`#333333`).
- **Font:** `Body Small` (12px, Regular).
- **Padding:** 4px vertical, 8px horizontal.
- **Border Radius:** `radius-sm` (4px).
- **Example:** Status on credit card components.

2.9 Dropdown

Month/Year Dropdown

- **Appearance:** Rounded rectangular button with text and a dropdown arrow.
- **Background:** `Light Gray` (`#F5F5F5`)
- **Text Color:** `Dark Gray` (`#333333`)
- **Font:** `Body Medium` (14px, Regular)
- **Padding:** `spacing-xs` (8px) vertical, `spacing-sm` (16px) horizontal.
- **Border Radius:** `radius-sm` (4px).
- **Icon:** Down arrow icon, `Medium Gray` (`#CCCCCC`).
- **Example:** "Jul 2024" dropdown on Analytics screen.

2.10 Toggle/Switch

Eye Icon Toggle

- **Appearance:** Icon that toggles visibility.
- **Icon Color:** `Medium Gray` (`#CCCCCC`).
- **Example:** Eye icon next to "Wallet Balance" on Home screen.

2.11 Header/Navigation Bar

Screen Header

- **Appearance:** Top bar with title, and optional icons (e.g., back, notification).
- **Background:** `White` (`#FFFFFF`)
- **Height:** Approximately 44px (excluding status bar).
- **Title Font:** `Heading 1` (24px, Bold), `Dark Gray` (`#333333`).
- **Icon Size:** 24px x 24px.
- **Icon Color:** `Dark Gray` (`#333333`).
- **Padding:** `spacing-sm` (16px) vertical, `spacing-md` (24px) horizontal.
- **Example:** "Analytics" header, "Hi, Jonathan" header.

2.12 Credit Card Display

Mini Credit Card

- **Appearance:** Small, rounded rectangular card displaying last 4 digits.
- **Background:** Gradient (e.g., `Primary Green` to `Light Green` for active, dark gradient for inactive).
- **Text Color:** `White` (`#FFFFFF`).
- **Font:** `Body Small` (12px, Regular).
- **Padding:** `spacing-xs` (8px).
- **Border Radius:** `radius-md` (8px).
- **Example:** Cards section on Home screen.

Add Card Button

- **Appearance:** Circular button with a plus icon.
- **Background:** `Light Gray` (`#F5F5F5`).
- **Icon Color:** `Medium Gray` (`#CCCCCC`).
- **Size:** 40px x 40px.
- **Border Radius:** `radius-full` .
- **Example:** Plus icon in the "Cards" section.

3. Screen-by-Screen Breakdown

This section provides a detailed breakdown of each screen, including its layout structure, component usage, spacing, alignment, and adapted content for the SplitMate context.

3.1 Onboarding Screen

Purpose: Introduce users to SplitMate and guide them through the initial setup or login process.

Layout Structure:

- Full-height background with a large graphic element at the top.
- Centered main content area with a headline, descriptive text, and action buttons.
- Bottom-aligned secondary action for existing users.

Component Usage & Content Adaptation:

- **Status Bar:** Standard iOS-style status bar (time, signal, battery).
- **Background:** Solid `Primary Green` (`#4B5320`).
- **Top Graphic:** A large, abstract graphic element (e.g., two overlapping squares) in a slightly lighter green (`Light Green` or `Accent Green`) positioned at the top-left, serving as a visual brand element. This replaces the bright green squares in the original design.
- **Headline:** `Display` typography (`Track Your Spending Effortlessly` becomes `Split Expenses Effortlessly`). Text color: `White` (`#FFFFFF`).
- **Description:** `Body Large` typography (`Manage your finances easily...` becomes `Easily track and split group expenses with friends, manage balances, and settle up without hassle.`). Text color: `White` (`#FFFFFF`).
- **Primary Action Button:** `Primary Button` component (`Get Started` becomes `Start Splitting`). Background: `Dark Green` (`#3A4219`). Text color: `White` (`#FFFFFF`).
- **Secondary Action Link:** `Secondary Button` component (styled as a link, `Already have an account? Login` becomes `Already a member? Log In`). Text color: `White` (`#FFFFFF`).

Spacing & Alignment:

- **Top Graphic:** Aligned to top-left, with `spacing-md` (24px) from top and left edges.
- **Headline:** Centered horizontally, with `spacing-xl` (48px) from the top graphic and `spacing-md` (24px) from the description.
- **Description:** Centered horizontally, with `spacing-md` (24px) from the headline and `spacing-lg` (32px) from the primary button.
- **Primary Button:** Centered horizontally, with `spacing-lg` (32px) from the description and `spacing-sm` (16px) from the secondary action link.

- **Secondary Action Link:** Centered horizontally, with `spacing-lg` (32px) from the bottom edge (considering safe area).
- **Horizontal Margins:** `spacing-lg` (32px) on both sides for content area.

3.2 Home/Dashboard Screen

Purpose: Provide an overview of group balances, recent activities, and quick actions for expense management.

Layout Structure:

- Top header with greeting and notification icon.
- Section for overall group balances.
- Quick action buttons (Send, Request, More).
- List of recent expense activities.
- Bottom navigation tab bar.

Component Usage & Content Adaptation:

- **Status Bar:** Standard iOS-style status bar.
- **Header:** `Screen Header` component.
  - **Greeting:** `Hi, [User Name]` (`Hi, Jonathan` becomes `Hi, [Friend's Name]`). Font: `Heading 1` (24px, Bold), `Dark Gray` (`#333333`).
  - **Welcome Message:** `Welcome Back!` Font: `Body Medium` (14px, Regular), `Medium Gray` (`#CCCCCC`).
  - **Notification Icon:** Icon Button (bell icon with `Notification Badge` if unread). Icon color: `Dark Gray` (`#333333`).
- **Wallet Balance Section (adapted to Group Balances):**
  - **Title:** `Heading 2` (`Wallet Balance` becomes `Group Balances`). Font: `Heading 2` (20px, Semibold), `Dark Gray` (`#333333`).
  - **Total Balance Display:** Large text (`$17,298.92` becomes `$[Total Balance]`). Font: `Display` (32px, Bold), `Dark Gray` (`#333333`).
  - **Toggle Visibility:** `Eye Icon Toggle` component to hide/show balance.
  - **Cards (adapted to Group Cards/Quick Access):**
    - **Add Group Button:** `Add Card Button` component (plus icon).
    - **Mini Group Cards:** `Mini Credit Card` component (e.g., `**** 7391` becomes `[Group Name]`). Backgrounds should use military green gradients or other distinct colors for different groups.

- **Quick Actions:**
  - **Send Button:** `Icon Button` (`Send` becomes `Settle Up`). Icon: Checkmark/Money icon. Background: `Primary Green` (`#4B5320`). Text: `Settle Up` (Button Text, White).
  - **Request Button:** `Icon Button` (`Request` becomes `Request Split`). Icon: Hand/Request icon. Background: `Light Green` (`#6B7B3A`). Text: `Request Split` (Button Text, Dark Green).
  - **More Button:** `Icon Button` (dots icon). Background: `Light Gray` (`#F5F5F5`). Icon color: `Dark Gray` (`#333333`).
- **Recent Activity Section (adapted to Recent Splits):**
  - **Title:** `Heading 2` (`Recent Activity` becomes `Recent Splits`). Font: `Heading 2` (20px, Semibold), `Dark Gray` (`#333333`).
  - **See Details Link:** `Body Medium` (`See Details >` becomes `View All >`). Text color: `Medium Gray` (`#CCCCCC`).
  - **Activity List Items:** `Activity List Item` component.
    - **Avatar:** `Circular Avatar` (user photo or initial).
    - **Primary Text:** `Dribbble` becomes `[Friend's Name]` or `[Group Name]` . `Wilson Mango` becomes `[Friend's Name]` . `Abram Botosh` becomes `[Friend's Name]` .
    - **Secondary Text:** `Today, 16:32` becomes `[Date], [Time]` . `Yesterday` becomes `[Date]` . `Transfer` becomes `[Split Type]` . `Income` becomes `[Payment Type]` .
    - **Amount:** `- $120` becomes `-$[Amount]` (owed), `-$240` becomes `-$[Amount]` (owed), `+$450` becomes `+$[Amount]` (paid/received).
- **Bottom Navigation:** `Bottom Navigation Tab Bar` component.
  - Icons: Home, Analytics, Groups, Profile (or similar).

Spacing & Alignment:

- **Header:** `spacing-md` (24px) padding from top and sides.
- **Section Titles:** `spacing-lg` (32px) from previous section, `spacing-sm` (16px) from content.
- **Quick Actions:** `spacing-md` (24px) between buttons, centered horizontally.
- **List Items:** `spacing-sm` (16px) vertical padding, `spacing-md` (24px) horizontal padding.
- **Overall Margins:** `spacing-md` (24px) horizontal margins for main content areas.

3.3 Analytics Screen

Purpose: Provide detailed insights into spending patterns and expense distribution within SplitMate groups.

Layout Structure:

- Top header with screen title.
- Overview of spending and expense totals.
- Interactive chart displaying expense trends.
- Breakdown of expenses by category.
- Bottom navigation tab bar.

Component Usage & Content Adaptation:

- **Status Bar:** Standard iOS-style status bar.
- **Header:** `Screen Header` component.
  - **Title:** `Analytics` Font: `Heading 1` (24px, Bold), `Dark Gray` (`#333333`).
- **My Spending Card (adapted to My Contributions):**
  - **Card:** `General Card` component.
  - **Title:** `My Spending` becomes `My Contributions` .
  - **Total:** `$7,221.18` becomes `$[Total Contributions]` . Font: `Heading 1` (24px, Bold), `Dark Gray` (`#333333`).
  - **Change Indicator:** `4.9% From last week` becomes `[Percentage Change] From last [Period]` . Text color: `Primary Green` (`#4B5320`) for positive, `Error` (`#DC3545`) for negative.
  - **Mini Bar Chart:** `Bar Chart (Mini)` component. Bars in `Light Green` (`#6B7B3A`).
- **Expense Card (adapted to Group Expenses):**
  - **Card:** `General Card` component.
  - **Title:** `Expense` becomes `Group Expenses` .
  - **Total:** `-$2,082.12` becomes `-$[Total Group Expenses]` . Font: `Heading 1` (24px, Bold), `Dark Gray` (`#333333`).
  - **Month/Year Dropdown:** `Month/Year Dropdown` component (`Jul 2024` becomes `[Current Month/Year]`).
  - **Main Line Chart:** `Line Chart (Main)` component. Line color: `Primary Green` (`#4B5320`). Fill: Gradient from `Light Green` (`#6B7B3A`) to transparent.
- **Expense Breakdown by Category:**
  - **Category List Items:** `Category List Item` component.
    - **Dot:** Color-coded based on category (e.g., `Healthcare` becomes `Food` , `Utilities` , `Rent` , `Travel`).

    - **Category Name:** `Healthcare` becomes `[Category Name]`. `Food` becomes `[Category Name]`. `Utilities` becomes `[Category Name]`. `Suplies` becomes `[Category Name]`.
    - **Amount:** `$450.00` becomes `$[Amount]`. `$250.00` becomes `$[Amount]`. `$275.00` becomes `$[Amount]`. `$150.00` becomes `$[Amount]`.
- **Bottom Navigation:** `Bottom Navigation Tab Bar` component.
  - Icons: Home, Analytics, Groups, Profile (or similar).

Spacing & Alignment:

- **Header:** `spacing-md` (24px) padding from top and sides.
- **Cards:** `spacing-lg` (32px) between cards, `spacing-md` (24px) internal padding.
- **Chart Labels:** `spacing-sm` (16px) for axis labels.
- **Category List Items:** `spacing-sm` (16px) vertical padding.
- **Overall Margins:** `spacing-md` (24px) horizontal margins for main content areas.

4. Telegram Mini App Considerations

Developing SplitMate as a Telegram Mini App (TWA) requires specific considerations to ensure a native-like experience and proper integration with the Telegram ecosystem.

4.1 Theme Variables Mapping

Telegram Mini Apps provide theme parameters that allow the app to adapt its appearance to the user's Telegram client theme (e.g., light/dark mode). The SplitMate UI should map its design system colors to these variables where appropriate.

Telegram Theme Parameter	SplitMate CSS Variable	Description
`bg_color`	`--tg-theme-bg-color`	Main background color of the app.
`text_color`	`--tg-theme-text-color`	Main text color.
`hint_color`	`--tg-theme-hint-color`	Hint text color, e.g., placeholders.
`link_color`	`--tg-theme-link-color`	Link text color.
`button_color`	`--tg-theme-button-color`	Background color of buttons.
`button_text_color`	`--tg-theme-button-text-color`	Text color of buttons.

`secondary_bg_color`	`--tg-theme-secondary-bg-color`	Secondary background color, e.g., for cards or distinct sections.

Mapping Strategy:

- `bg_color` should map to `White` (`#FFFFFF`) for light themes and a dark gray for dark themes.
- `text_color` should map to `Dark Gray` (`#333333`) for light themes and `White` (`#FFFFFF`) for dark themes.
- `hint_color` should map to `Medium Gray` (`#CCCCCC`).
- `link_color` can be mapped to `Primary Green` (`#4B5320`).
- `button_color` for primary actions should map to `Primary Green` (`#4B5320`).
- `button_text_color` for primary actions should map to `White` (`#FFFFFF`).
- `secondary_bg_color` should map to `Light Gray` (`#F5F5F5`) for light themes and a slightly lighter dark gray for dark themes.

4.2 Safe Areas

Telegram Mini Apps run within the Telegram client, which may have its own UI elements (e.g., header, bottom navigation) that can obscure app content. Proper handling of safe areas is crucial, especially for devices with notches or dynamic islands.

- **Viewport:** The app should utilize `window.innerHeight` and `window.innerWidth` to determine the available viewport size.
- **CSS `env()` variables:** Use `safe-area-inset-top` , `safe-area-inset-bottom` , `safe-area-inset-left` , and `safe-area-inset-right` to apply appropriate padding to content, ensuring it's not obscured by device-specific UI elements or Telegram's interface.
- **Bottom Navigation:** The app's custom bottom navigation bar should account for `safe-area-inset-bottom` to prevent it from being cut off on devices with gesture bars.

4.3 Viewport Handling

Telegram Mini Apps are essentially web pages, and their responsiveness is key. The UI should be designed to adapt gracefully to various screen sizes and orientations, though primarily optimized for portrait mode on mobile devices.

- **Responsive Design:** Use flexible layouts (Flexbox, Grid) and relative units (%, `vw` , `vh`) where appropriate.

- **Meta Viewport Tag:** Ensure the HTML includes `<meta name="viewport" content="width=device-width, initial-scale=1.0, viewport-fit=cover">` for correct scaling and safe area handling.

4.4 Haptic Feedback Points

Haptic feedback can enhance the user experience by providing tactile confirmation for interactions. Key interaction points should trigger subtle haptic feedback.

- **Primary Button Taps:** `Primary Button` (`Get Started` , `Settle Up` , `Start Splitting`) taps.
- **Icon Button Taps:** `Icon Button` taps (e.g., `Send` , `Request` , tab bar icons).
- **Toggle Switches:** `Eye Icon Toggle` taps.
- **Dropdown Selections:** `Month/Year Dropdown` selections.
- **Long Presses:** Any long-press interactions (if implemented).

5. CSS Custom Properties

This section defines a complete set of CSS custom properties (variables) for the design system, enabling easy theming and consistent styling across the application.

CSS

```
:root {
  /* Colors - Military Green Palette */
  --color-primary-green: #4B5320;
  --color-light-green: #6B7B3A;
  --color-dark-green: #3A4219;
  --color-accent-green: #8F974B;

  /* Colors - Neutrals */
  --color-white: #FFFFFF;
  --color-light-gray: #F5F5F5;
  --color-medium-gray: #CCCCCC;
  --color-dark-gray: #333333;
  --color-black: #000000;

  /* Colors - Feedback */
  --color-success: #28A745;
  --color-warning: #FFC107;
  --color-error: #DC3545;

  /* Typography */
  --font-family-primary: -apple-system, BlinkMacSystemFont, "Segoe UI", Roboto,
```

```
  --font-size-display: 32px;
  --font-size-h1: 24px;
  --font-size-h2: 20px;
  --font-size-body-lg: 16px;
  --font-size-body-md: 14px;
  --font-size-body-sm: 12px;
  --font-size-button: 16px;

  --font-weight-regular: 400;
  --font-weight-semibold: 600;
  --font-weight-bold: 700;

  --line-height-display: 40px;
  --line-height-h1: 32px;
  --line-height-h2: 28px;
  --line-height-body-lg: 24px;
  --line-height-body-md: 20px;
  --line-height-body-sm: 18px;
  --line-height-button: 24px;

  /* Spacing */
  --spacing-xxs: 4px;
  --spacing-xs: 8px;
  --spacing-sm: 16px;
  --spacing-md: 24px;
  --spacing-lg: 32px;
  --spacing-xl: 48px;

  /* Border Radius */
  --radius-sm: 4px;
  --radius-md: 8px;

6. Assets and Icons

This section describes the necessary icons and visual assets for the SplitMate UI. All icons should be provided in a scalable vector format (e.g., SVG) to ensure crisp rendering across different screen densities.

6.1 Icons

Icon Name	Description	Usage Context	Suggested Style
Logo/Brand Mark	Abstract graphic element for branding.	Onboarding screen, potentially app icon.	Two overlapping squares (similar to original, but adapted for military green).
Bell / Notification	Indicates unread notifications.	Home screen header.	Outline style.
Eye / Visibility Toggle	Toggles visibility of sensitive information (e.g., balance).	Home screen, next to group balances.	Outline style.
Plus / Add	Adds new items (e.g., new group, new card).	Home screen, "Cards" section.	Outline style.
Send / Settle Up	Initiates sending money or settling up.	Home screen quick actions.	Outline style, possibly with a checkmark or money symbol.
Request / Split	Initiates requesting money or splitting an	Home screen quick actions.	Outline style, possibly with a hand

	expense.		or split symbol.
More / Kebab Menu	Reveals more options.	Home screen quick actions.	Three dots (horizontal or vertical).
Home	Navigates to the Home/Dashboard screen.	Bottom navigation bar.	Filled/Outline style for active/inactive.
Analytics / Chart	Navigates to the Analytics screen.	Bottom navigation bar.	Filled/Outline style for active/inactive.
Groups / Users	Navigates to a screen managing groups or friends.	Bottom navigation bar.	Filled/Outline style for active/inactive.
Profile / User	Navigates to the user profile screen.	Bottom navigation bar.	Filled/Outline style for active/inactive.
Chevron Down	Indicates a dropdown or expandable section.	Analytics screen, month/year dropdown.	Outline style.
Bar Chart (Mini)	Represents a small bar chart.	Analytics screen, "My Contributions" card.	Filled style.
Line Chart (Main)	Represents a line chart.	Analytics screen, "Group Expenses" card.	Filled style.

6.2 Visual Assets

- **Credit Card Backgrounds:** The mini credit card components will require distinct background designs. These can be simple gradients using the military green palette or abstract patterns that complement the theme. For example, the active card could use a gradient from `--color-primary-green` to `--color-light-green`, while inactive cards could use a darker, desaturated gradient.
- **Avatar Placeholders:** Default images or initials for user avatars when a profile picture is not available. These should be simple, circular, and use neutral colors from the palette.
