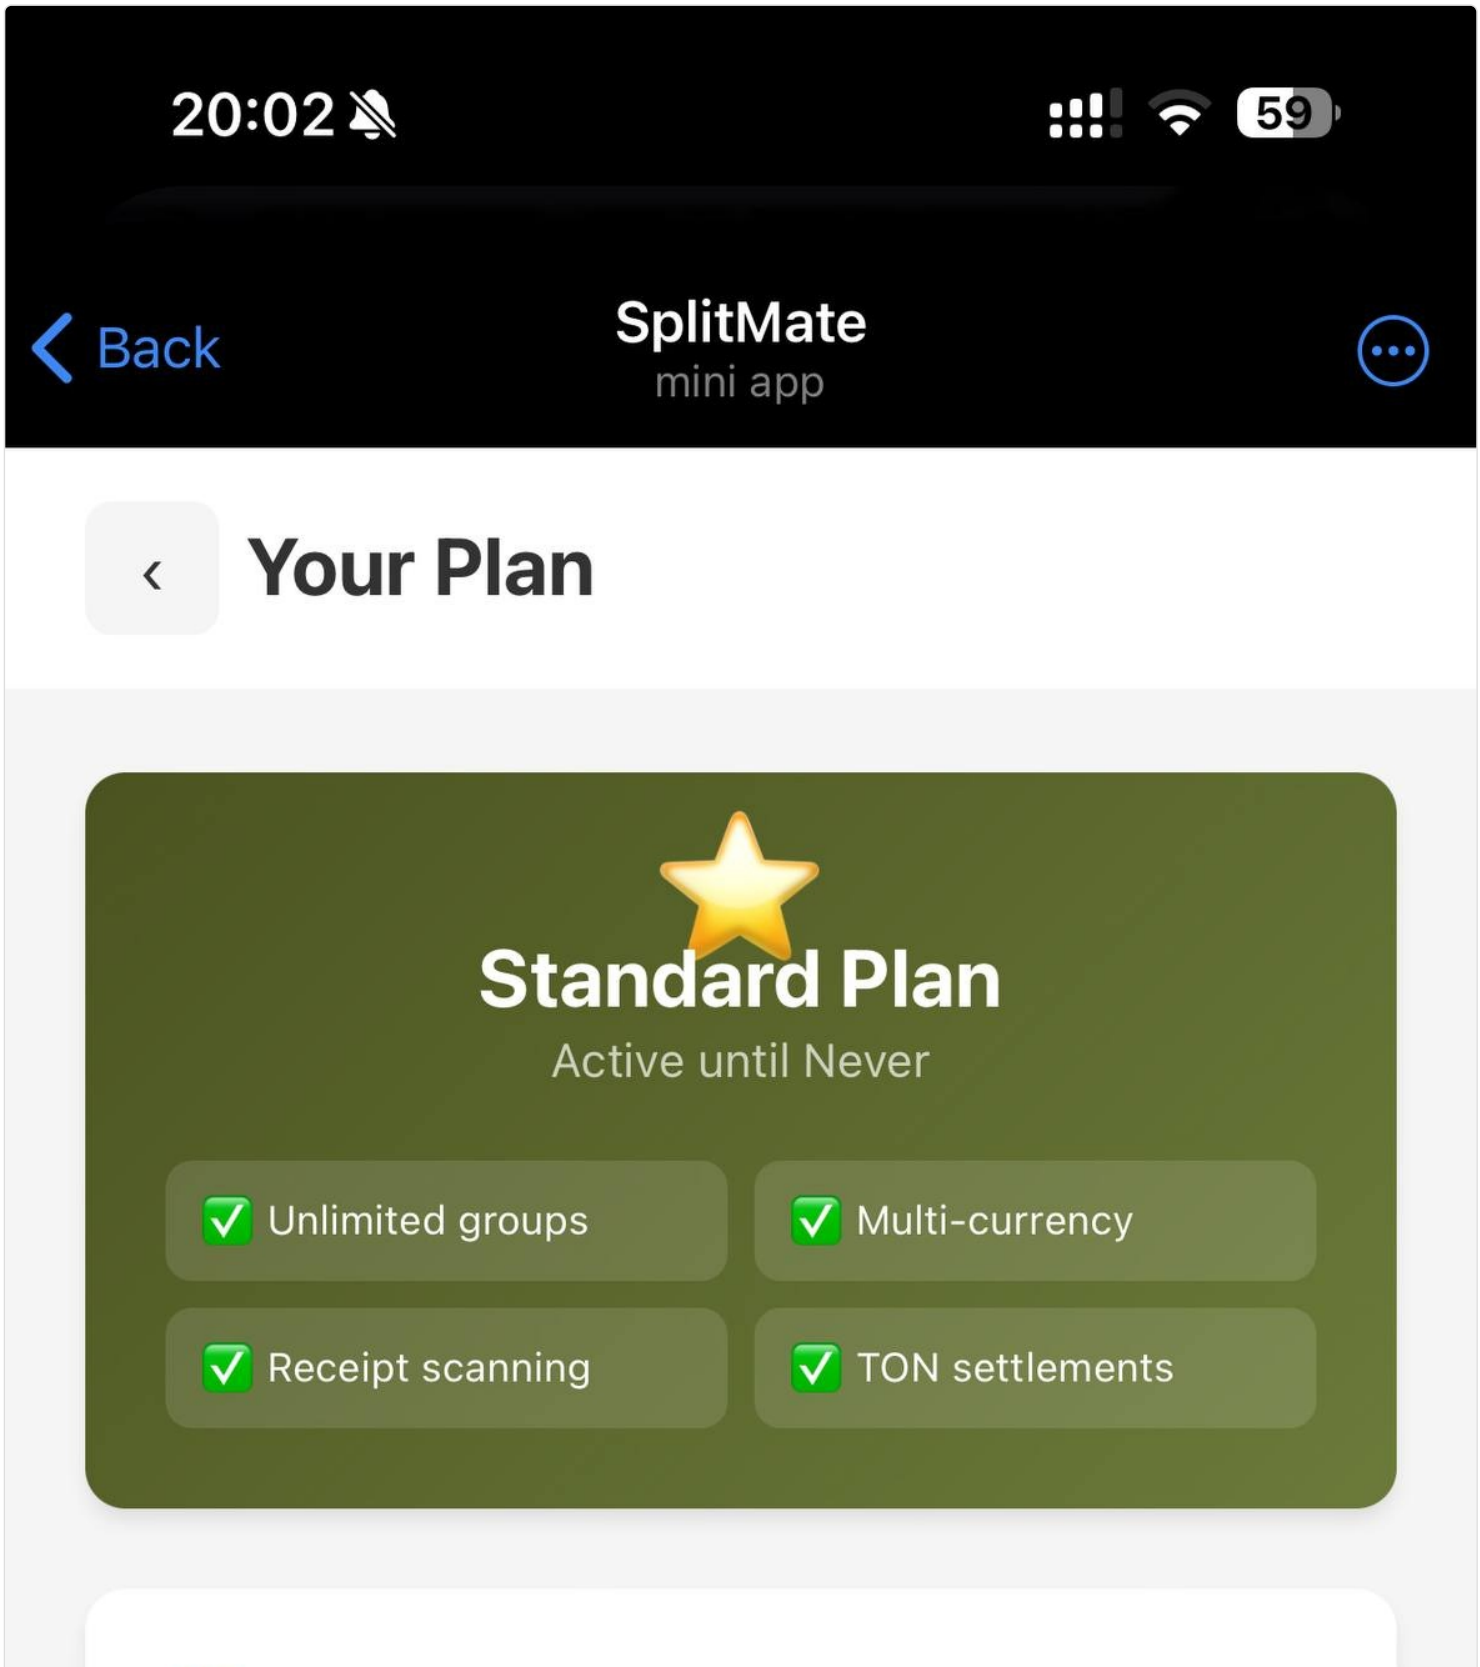
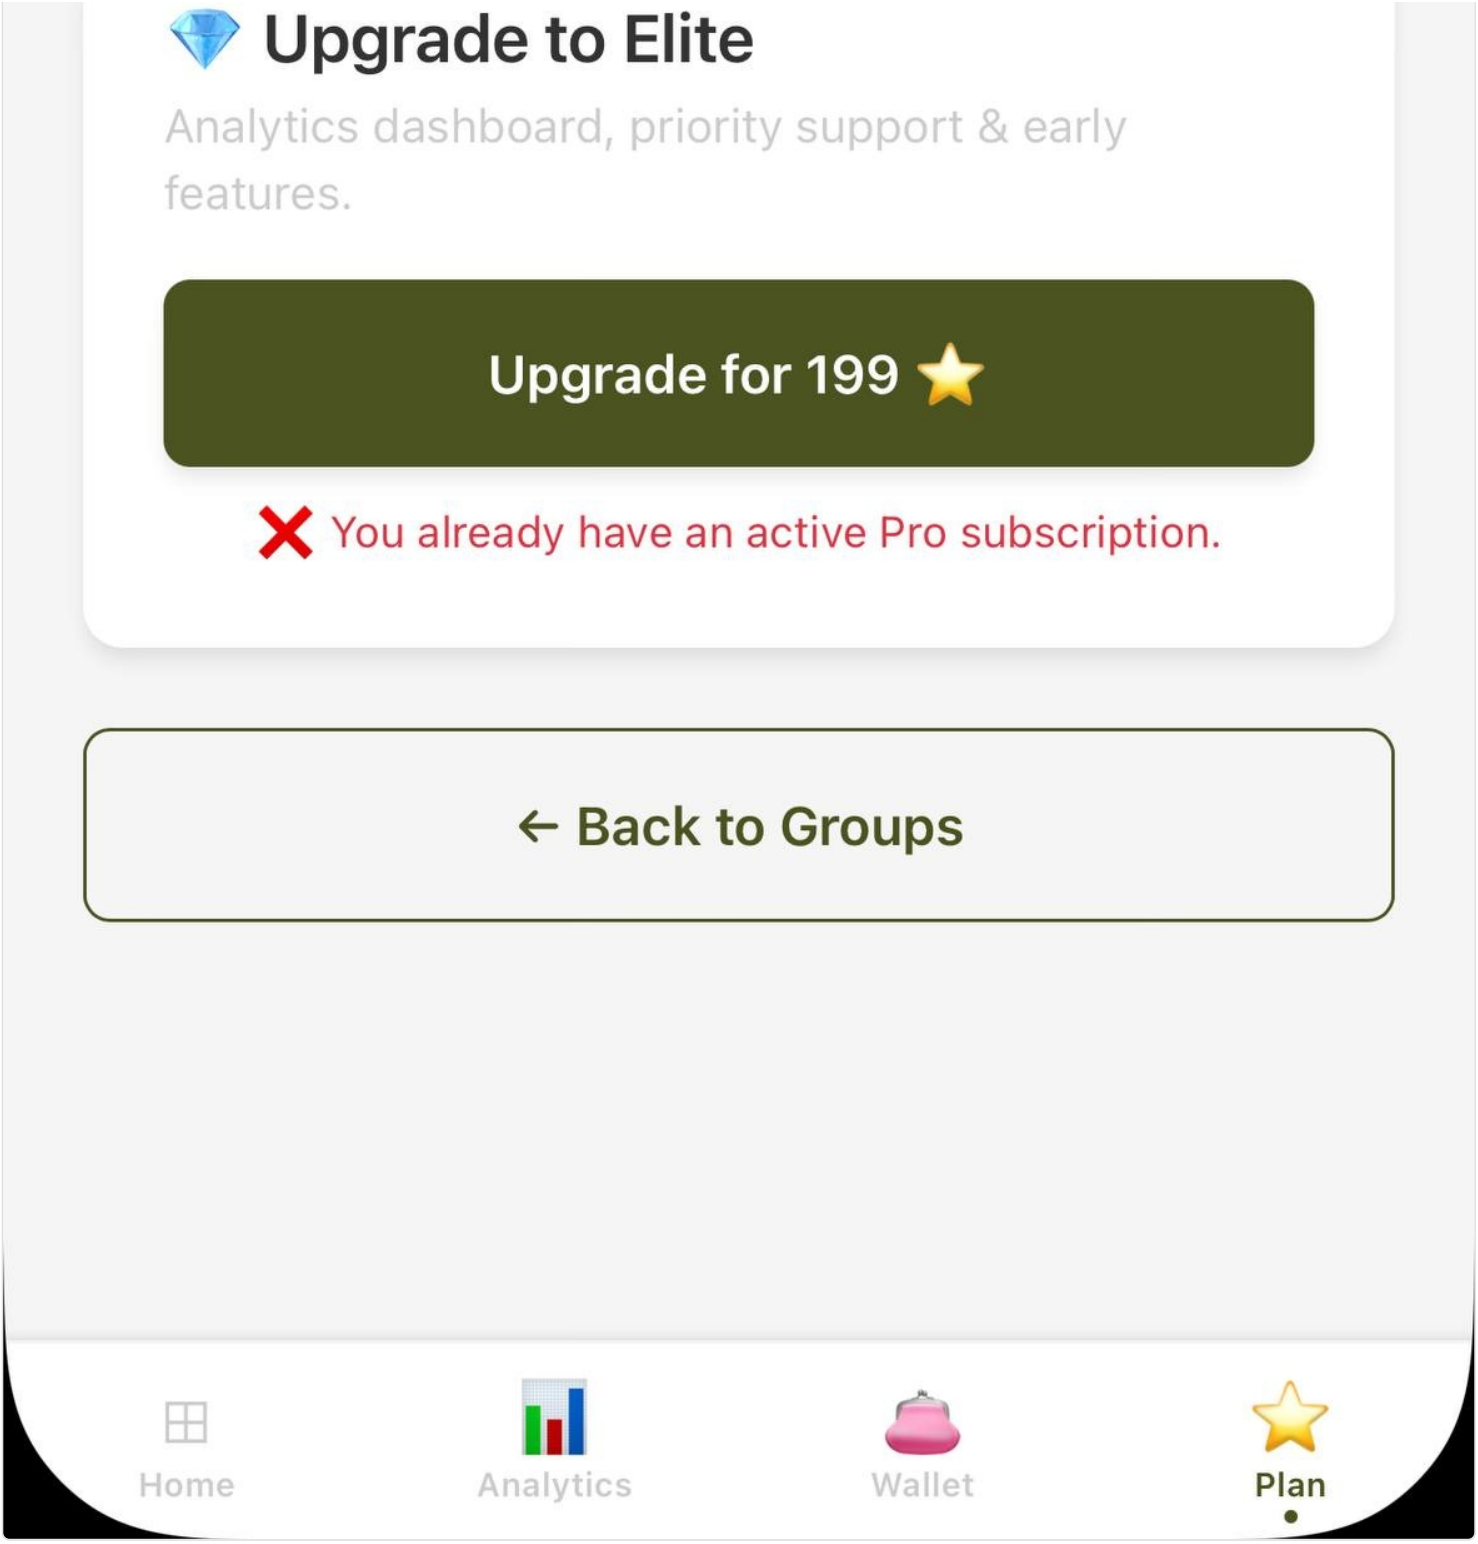
SplitMate Icon Replacement Guide

This guide provides a visual reference for replacing unprofessional emojis and icons in the SplitMate application with custom military green SVG icons. Each section details the screen, the problematic emoji, its replacement SVG, and suggested CSS selectors or component locations.

> **Note to Developer:** The provided screenshots are for visual context only. Please refer to the **CSS Selector/Component** column for the exact location where the new SVG icon should be implemented.

1. Tab Bar (Bottom Navigation)





Location	Old Emoji	New Icon (SVG)	SVG Filename	CSS Selector/Component
Home tab	âŠž		`tab_home.svg`	`.tab-bar-item.home` or similar component for Home tab
